EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: insert – physical – before "pushbutton" in Claims 1 (Page 2, Line 1 of Claim 1 of the Claims filed 4/27/05) and Claim 16 (Page 4, Line 2 of Claim 16 of the Claims filed 4/27/05) and Claim 17 (Page 4, Line 3 of Claim 17 of the Claims filed 4/27/05) and

2. Authorization for this examiner's amendment was given in a telephone interview with William James on 7/8/05.

Allowable Subject Matter

3. Claims 1-19 are allowed over the prior art of record.

4. The following is an examiner's statement of reasons for allowance: The Prior art does not teach or fairly suggest the subject matter of these claims. Independent Claims 1, 13, 16, and 17, when considered as a whole, are allowable over the prior art of record. Specifically, prior art of record fails to clearly teach or suggest the method of using a physical mechanical input wherein sensed input that does not activate the

button previews a portion of content data that would be provided as output if the pushbutton were activated, such that the content of the preview varies in accordance with the degree of force applied to the input button in the independent claims. While the prior art of record shows methods that present information on the screen dependent upon the degree of force applied, they do not show the content of preview, preview being part of input that would be displayed if it were activating, varying according to the degree of force applied.

Dependent claims 2-12, 14-15 and 18-19 further add limitations to the allowable subject matter of the respective independent claims, thus are also allowable.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
